

Doua Gannouni

Junior Software Engineer | Manual Testing & QA Automation

Tunisia | gannounidoua09@gmail.com | +216 22 338 664 | linkedin.com/in/gannounidoua

PROFESSIONAL SUMMARY

Junior Software Engineer recently graduated in Software Engineering, seeking a role in manual software testing or test automation. Experience in designing and executing web and mobile tests, quality reporting, Jira defect tracking, and automation with Playwright, Appium and Selenium. Interested in modern QA environments combining BDD/POM, CI/CD, Docker and intelligent LLM-based workflows.

CORE SKILLS

Manual testing & QA: test case design, test execution, functional testing, regression testing, reporting, defect tracking, Jira
Test automation: Playwright, Appium, Selenium, Cucumber/BDD, Page Object Model, Allure Report, web and mobile testing
Development: JavaScript, TypeScript, React.js, Node.js, Express.js, Laravel, REST APIs, JWT, Socket.io
DevOps & tools: Git, GitHub, GitLab, Docker, Postman, VS Code, npm, Android Studio, n8n
Databases & design: MySQL, MongoDB, Firebase, UML, MVC, Design Patterns, software architecture
AI & automation: OpenAI API, Gemini API, LLM agents, AI chatbots, recommendation systems, automated workflows

PROFESSIONAL EXPERIENCE

QA Automation Engineer Intern - Webify Technology | Sousse, Tunisia | Feb. 2026 - Jun. 2026

- Designed a web and mobile test automation solution for a taxi booking business application.
- Developed automated web tests with Playwright and mobile tests with Appium using a BDD/POM architecture.
- Implemented an n8n workflow connected to Jira to automatically trigger Playwright tests when a ticket moves to the testing phase.
- Integrated an AI agent based on the OpenAI API to analyze Jira ticket content, execute relevant scenarios and comment test results automatically.
- Generated Allure reports and tracked defects through Jira to improve failure analysis and QA traceability.
- Contributed to a temporary test environment deployment workflow using Docker and GitLab.

Full-Stack MERN Developer Intern - BeeCoders | Tunisia | Jul. 2024 - Aug. 2024

- Designed and developed a MERN e-learning platform with an AI chatbot using the Gemini API and a course recommendation system.
- Built responsive interfaces, secured REST APIs, email features and media storage workflows.
- Tech stack: React.js, Node.js, Express.js, MongoDB, REST APIs, Nodemailer, ImageKit, Git/GitHub, Tailwind CSS.

Final-Year Project Intern - Full-Stack MERN Developer - Quetrattech | Mahdia, Tunisia | Feb. 2023 - Jun. 2023

- Developed a web-based information system for managing clients, projects, documents, employees, invoices and statistics.
- Implemented secure authentication, email sending with Nodemailer and Orange SMS API integration.
- Tech stack: React.js, Node.js, Express.js, MySQL, REST APIs, Git/GitHub, MVC architecture.

Laravel Web Developer Intern - Top Niveau | Tunisia | Jul. 2022

- Developed a web platform connecting clients with real estate professionals.
- Contributed to web modules using Laravel 8, MySQL, MVC and Bootstrap.

Front-End Developer Intern - Office de la Marine Marchande | Tunisia | Jul. 2021

- Created a static and responsive website presenting maritime services.
- Used HTML5, CSS3, JavaScript and Bootstrap.

EDUCATION

National Engineering Degree in Computer Science, Software Engineering - EPI Digital School | 2024 - 2026

Main coursework: software architecture, design patterns, software testing, artificial intelligence, web development, Scrum/Kanban.

Master 1 - IoT Services Development - ISET Mahdia | 2023 - 2024

Focus: software architecture, testing and automation, embedded systems, Arduino, C++.

National Bachelor's Degree in Information Technology, Information Systems Development - ISET Mahdia | 2020 - 2023

Foundations: algorithms, OOP, web development, mobile development, databases, artificial intelligence.

ACADEMIC PROJECTS

Freelance Marketplace Platform - EPI Digital School | 2025

- Developed a web platform connecting freelancers and clients with project management, messaging and payment logic.
- Created UML designs and applied a V-model methodology. Stack: MongoDB, Express.js, React.js, Node.js, Socket.io.

Android Social Network Mobile App - ISET Mahdia | 2023

- Developed a content-sharing mobile application with biometric authentication, posts, likes/comments and profile management.
- Technologies: Android Studio, Java, Firebase, Biometric API.

CERTIFICATION, LANGUAGES AND SOFT SKILLS

Certification: Artificial Intelligence - AI chatbots and recommendation systems, 9antra The Bridge, 2025.

Languages: Arabic native | French upper-intermediate / technical use | English technical intermediate.

Soft skills: teamwork, autonomy, problem-solving, time management, technical communication, adaptability.
